

Whispers Between Us

Whispers Between Us is a text-based mystery set in an isolated Alpine village on a full-moon night. You navigate rooms, collect clues, and build — or destroy — trust with characters who each have their own version of the truth. The game never tells you what to do next. It only shows you what is there, and lets you decide what it means. Every decision you make changes what you can access, what people tell you, and how the night ends.

Commands

Command	Action
n . s . e . w . ne . sw . nw . se . u . d .	Move
look .	Examine your surroundings
talk .	Speak to someone nearby
take(X) .	Pick up an item
drop(X) .	Put down an item
